

PYTHON HACK NIGHT

0001 – First Thing's First (10/09/18)

WELCOME

- Why this group?
- Who am I?
- What to expect?

PYTHON NEWS FOR THE MONTH

- Guido stepping aside
 - A lot of big open source projects changing
 - GVR, Linus
 - Thoughts?
- Java is going paid
 - \$25/processor per month
 - Where are people using Java?
 - Does Open Source matter?
- Cool module for the Month
 - requests: HTTP for Humans
 - useful for all things HTML related
 - great documentation
 - I use it for:
 - polling process status
 - simple REST API's
 - scraping web site

INTRODUCTIONS

- Introduce yourselves
 - name
 - what you are working
 - what you would be interested in talking about

MONTHLY PRESENTATION

- Interested in presenters for 15 to 20 minute talks
- My first Python web application
 - a world-wide web app
 - has been running since 2005
 - important Python features
 - what I would do different
